East Godavari, Andhra Pradesh (Open to Relocation)

## EDUCATION

### •CCBP Intensive 4.0 Tech Program

Mar 2024 – May 2025

Full Stack Web Development

### •Arni University, Kangra, Himachal Pradesh

Dec 2017 – Sep 2020

Bachelor of Science, Chemistry

## EXPERIENCE

### •LABMENTIX

Oct 2025 - Present

Web Developer Intern

Remote

- Engineered three full-stack projects—SkillSphere (PaaS), RemoteWorkSuite, and API Testing Tool (SaaS)—as part of product-focused internship deliverables, ensuring alignment with organizational requirements.
- Built secure REST APIs and integrated Supabase for scalable data management, enabling reliable authentication and efficient data operations
- Deployed back-end services on Render and front-end applications on Vercel, ensuring smooth performance and high availability.
- Performed API testing, debugging, and optimization to improve application stability and user experience.

## PERSONAL PROJECTS

### •SkillSphere (GitHub | Vercel)

Oct 2025 -Nov 2025

Full-Stack Online Learning Platform

- **Tech Stack:** React, Vite, Node.js, Express.js, Supabase, Stripe
- Engineered a full-stack e-learning platform enabling students and instructors to access courses, track progress, take quizzes, and download certificates.
- Implemented secure user authentication, role-based access control, and data management using Supabase and integrated Stripe for seamless payment processing.
- Optimized front-end performance by building modular UI workflows using React, Vite, and a scalable Node.js + Express.js backend architecture.

### •Task Manager (GitHub | Vercel)

Nov 2025 -Nov 2025

Web Application

- **Tech Stack:** React.js, Node.js, REST API, MongoDB, Vercel
- Developed a full-stack task management application using React.js, Node.js, REST APIs, and MongoDB, enabling seamless task creation and tracking.
- Implemented efficient CRUD operations and real-time task updates to enhance usability and improve overall workflow productivity.
- Deployed the application on Vercel, ensuring high availability, fast load times, and smooth performance across devices.

## TECHNICAL SKILLS AND INTERESTS

**Front-End Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

**Back-End Development:** Node.js, Express.js, REST APIs, Authentication (JWT)

**Databases:** MongoDB, MySQL, PostgreSQL

**Programming Languages:** C++, Python, JavaScript, SQL

**Tools / DevOps:** Git, GitHub, Deployment (Vercel, Render)

**Soft Skills:** Problem-Solving, Communication, Team Collaboration

**Areas of Interest:** Full-Stack Development, Web Applications, System Design

## CERTIFICATIONS

### • Basic to Advanced Microsoft Power BI

Jan 2024
